

Graduate Admission Requirements

Unconditional Admission

To qualify for unconditional admission to the UAH Graduate School, applicants must hold a bachelor's degree, or equivalent, from an approved institution and have a minimum grade-point average of a 3.0 on their undergraduate record*. Although there is no university-level admission test score requirement (e.g., GRE, GMAT or MAT), individual academic programs may require a minimum admissions test score for unconditional admission. View more information about individual program test score requirements on the Graduate Admissions Test Score Requirements webpage (<https://www.uah.edu/admissions/graduate/apply-for-admission/test-score-requirements/>).

Meeting the above unconditional admission requirements does not automatically ensure a student acceptance to an academic program. Applicants should consult their academic program for specific additional admission requirements. See college/departmental sections for specific admissions information.

International applicants should also visit the International Student catalog page (<http://catalog.uah.edu/grad/admissions/additional-admission-requirements-international-students/>) to review additional requirements.

**Individual academic programs may have higher GPA requirements for unconditional admission.*
