Graduate Admission Requirements

For admission to the Graduate School, applicants must hold a bachelor's degree, or equivalent, from an approved institution. Meeting Unconditional Admission requirements does not automatically ensure a student acceptance to an academic program. See college/departmental sections for specific admissions information.

Unconditional Admission

To qualify for unconditional admission, applicants must have a minimum grade-point average of B (3.0) on their undergraduate record *. Although there is no university-level admission test requirement (e.g., GRE, GMAT or MAT), individual programs may require a minimum admissions test score for unconditional admission. Applicants should consult the program for specific additional admission requirements.

*Individual programs may have higher GPA requirements for unconditional admission.

International applicants should also visit the International Student catalog page (http://catalog.uah.edu/grad/admissions/additional-admission-requirements-international-students/) to review additional requirements.
